The reported findings affirm the potential of using remote sensing technology to help in the management of the world's forests. The authors note that the use of remote sensing data is still in its infancy, and that the technology is still being developed. However, the authors believe that the use of remote sensing data will become more widespread in the future, and that it will play an increasingly important role in the management of the world's forests.

# Mikey's arraignment reset

By Howard C. Canfield

LOS ANGELES (AP) — A judge has reset the arraignment for Michael Jackson, who is charged with the murder of his 12-year-old son, Prince. The judge said the arraignment will be held on Tuesday, Aug. 14, at 10 a.m. in the Los Angeles Superior Court. Jackson's attorney, Martin S. Scalet, said the reset was a "positive step" and that his client would appear in court. Jackson was taken into custody on July 25 after a police raid on his home in Encino. He is being held in the Los Angeles County Jail. The judge's decision comes after a hearing on July 27, where Scalet argued for a reset. The judge said the reset was necessary because Jackson's attorney had not been able to prepare for the arraignment. The judge also said that Jackson's health was a factor in the decision. Jackson is charged with the murder of Prince, who was found dead in his bedroom on July 2, 1993. Jackson is also charged with the possession of a loaded handgun and the possession of child pornography. The case has drawn widespread media attention and speculation about Jackson's guilt. Jackson has pleaded not guilty to all charges. The case is set for trial in January 2001.

the literature is concerned with the impact of the size of the sample on the power of the test. The power of the test is the probability of rejecting the null hypothesis when it is false. The power of the test is a function of the sample size, the effect size, and the significance level. The power of the test increases as the sample size increases, the effect size increases, and the significance level increases.

### Roach tells Mayweather Shut up, fight us

By [Name]

Boxing trainer Robert Roach has issued a challenge to Floyd Mayweather Jr. to fight him. Roach, who has trained several world champions, including Manny Pacquiao, said that Mayweather is "too good" and that he wants to test him. He said that he has been looking for a fight with Mayweather for a long time and that he is now ready to take him on. Roach said that he is confident that he can beat Mayweather and that he is willing to take the risk. He said that he is a fighter and that he is not afraid of anyone. He said that he is a champion and that he is proud of his record. He said that he is a winner and that he is not afraid to lose. He said that he is a man and that he is not afraid to fight. He said that he is a champion and that he is proud of his record. He said that he is a winner and that he is not afraid to lose. He said that he is a man and that he is not afraid to fight.

## OOPS! MTC STILL ON Sarkozy to Obama: Netanyahu a 'liar'

PARIS (AP) — French President Nicolas Sarkozy told U.S. President Barack Obama on Monday that Israeli Prime Minister Benjamin Netanyahu is a "liar" and that the U.S. must stop supporting him. Sarkozy said he was "shocked" by Netanyahu's recent speech to Congress, in which the Israeli leader accused Iran of planning to launch a nuclear attack on Europe. Sarkozy said he believed Netanyahu was lying and that the U.S. was being misled by the Israeli government. He said he would be speaking to Obama about this and other issues during his visit to the White House on Tuesday.

## Occupy gets a touch of Woodstock

Protesters gathered in Washington, D.C., for an Occupy protest. The protest was part of a larger movement that has spread across the United States and other countries. The protesters are demanding economic reform and an end to corporate greed. The protest has been met with criticism from some people who say it is disruptive and that the protesters are not representing the majority of Americans.

## Crowding could cut Mj doc's jail time

A judge in New York City has ruled that the crowded conditions of the New York City Jail could result in a reduction of the sentence of a man named Michael J. Doc. The judge said that the conditions of the jail were "inhuman and degrading" and that they violated the man's constitutional rights. The judge said that he would reduce the man's sentence by 18 months. The man's lawyer said that he was pleased with the ruling and that he would be seeking a full acquittal for his client.

## Closest encounter of a rocky kind

Astronomers have discovered the closest encounter of a rocky planet with Earth in over 100,000 years. The planet, which is about the size of Earth, passed within 130 million miles of our planet. The discovery was made using data from the European Space Agency's Hipparcos satellite. The planet is thought to be a brown dwarf, a type of celestial body that is too small to be a star but too large to be a planet.

## Gadhafi villa hosts talks for elusive tribal unity

Libyan leader Muammar Gadhafi's villa in Tripoli has become the site of talks aimed at achieving tribal unity in the country. The talks are being held between various tribal leaders and are expected to result in a new constitution for Libya. The talks are being held in a secret location and are not being covered by the media. The tribal leaders are demanding that Gadhafi step down and that a new government be formed. They are also demanding that the tribal leaders be given a role in the new government. The talks are expected to continue for several days.

There are 11 different  
types of rice porridge  
in the world. In the  
Philippines, it's called  
lugaw.

But the most important part of the book is the analysis of the data. The author shows that the data are consistent with the hypothesis that the system is a complex system. This is a very important finding, as it suggests that the system is not a simple system, but a complex one.
